

PE Workstation LIGHT LOAD Series

The UNIDEX 'Lil Blue Series of Mobile Electric Workstations has been ergonomically designed to provide durability, versatility, flexibility and safety for your production needs.

STANDARD FEATURES

- Heavy duty 12-volt lead acid type battery powers ½ horse power motor
- Battery charger with manual and automatic shutoff built in
- Electric hydraulic lift mechanism
- Rail mounted thumb-switch control
- Lift capacities to 200 lbs.
- Two 5" locking swivel casters (rear) & two 5" fixed (front)
- Lowered height: 8"
- Raised height: 48"
- Bolt plate accepts tables, forks or custom fixtures
- Shipping weight: 215 lbs. (approx.)

The PE Series Light Load Mobile Electric Workstation is compact and agile - designed for frequent lifting chores, or where heaviness of the load rules out manual handling. A rechargeable battery provides the power to lift and lower loads quickly and without effort.

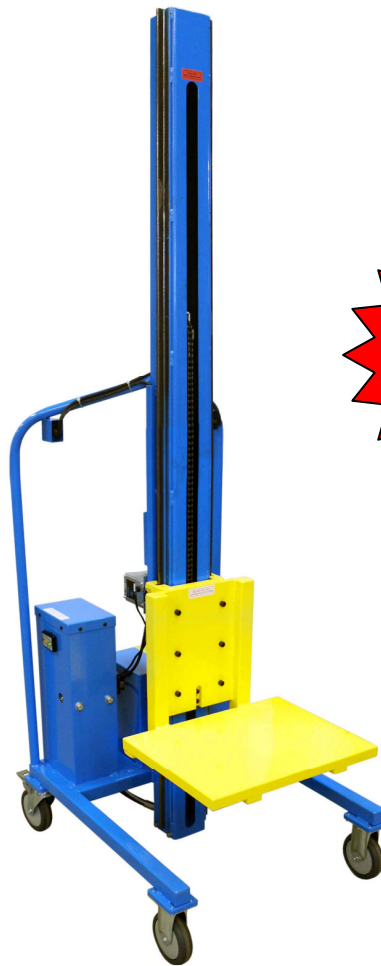

Unlike scissors lift configurations, the area between the legs and table is unobstructed, for easy access to machinery, racks and other immovable fixtures.

The PE is fabricated in the USA from welded steel construction. Each unit receives a durable, baked on powder coat finish, and undergoes rigorous quality testing at every phase of production.

OPTIONAL FEATURES

- Stainless steel construction
- Increased or decreased travels
- Custom table sizes
- Ball transfer, conveyor or tilt tables
- Custom fixtures, work holders, grabs and other load engagement devices
- All swivel casters

Quantity discounts available. Other custom features available, please call us to discuss your exact needs. Payment can be made using American Express, MasterCard and Visa credit cards.
