

Adjustable Height Work Platforms

The UNIDEX AHWP Series of Adjustable Height Platforms has been ergonomically designed to provide the greatest durability, versatility, flexibility and safety for your production needs.

AHWP Personnel Lift

STANDARD FEATURES

- AHWP 18: 18" of vertical lift from 7.5" to 25.5"
- AHWP 24: 24" of vertical lift from 7.5" to 31.5"

Air/oil hydraulic operation is used for height adjustment of the UNIDEX AHWP Personnel Lift. Shop air (85-125 psi) and the self-contained oil supply ensure trouble-free, quiet operation. If air pressure is lost, an Autoblock™ fail-safe blocking valve will protect your operator by preventing platform movement.

- Instantly adjust working heights with the touch of a hand rail mounted toggle switch
- An infinite range of height increments is available within the stroke distance
- Provides firm support with no "sponginess"
- Functions smoothly, even with irregular weight distribution
- Load capacity: 300 lbs.
- Air/oil hydraulic system
- Autoblock™ fail-safe system
- Shop air (85-125 psi)
- 48" x 36" deck with 42" high railing and kick plate
- Rubber mat on deck
- Chain entry
- Deck size, height, construction and load capacities can be customized to meet your expected needs

All UNIDEX work platforms are designed and manufactured in the USA to exacting quality standards from welded carbon steel construction. Each unit receives a durable, baked-on powder coat finish, and undergoes rigorous quality testing before shipment.
