

EH Series Workstation

The UNIDEX EH Positioning Series Workstation has been ergonomically designed to provide the greatest durability, versatility, flexibility and safety for your production needs.

Now it is easy to eliminate bending, lifting and working in awkward postures. The EH Series Workstation is a compact, yet powerful electro-hydraulically operated unit (110/220 VAC), capable of handling loads up to 2,000 pounds. Tables, forks or specialized fixturing may be mounted to the carriage in order to raise, lower and rotate your product for fabrication, welding, assembly and other manufacturing operations. Height adjustments controls are either cabinet mounted, pendant operated or remote console. A variety of safety interlock devices are also available. Shown here are just a couple of possible machine configurations – all of which may be modified to meet your exact application requirements.

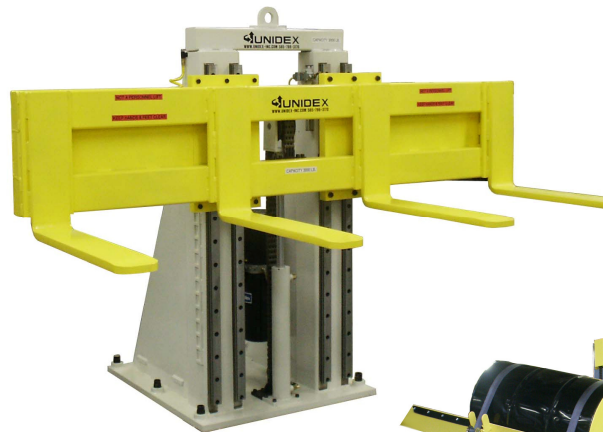

STANDARD FEATURES

- Electric hydraulic lift system (110/220 VAC)
- Cabinet-mounted up/down palm buttons
- 2,000 lb. lift capacity
- 36" vertical lift
- Full safety interlocks
- Durable oven-baked powder coat finish

OPTIONAL FEATURES

- Increased height adjustments
- Pendant controlled vertical height adjustment
- Stainless steel construction special finishes
- Powered rotations

All UNIDEX workstations are designed and manufactured in the USA to exacting quality standards from welded carbon steel construction. Each unit receives a durable, baked-on powder coat finish, and undergoes rigorous quality testing before shipment.

Quantity discounts available. Other custom features available, please call us to discuss your exact needs. Payment can be made using American Express, MasterCard and Visa credit cards.
