

PAILS DRUMS AND TOTES

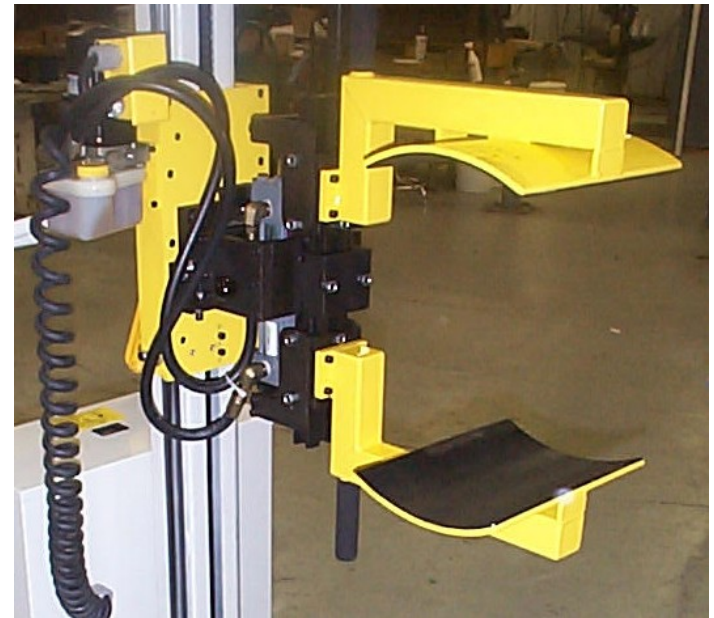

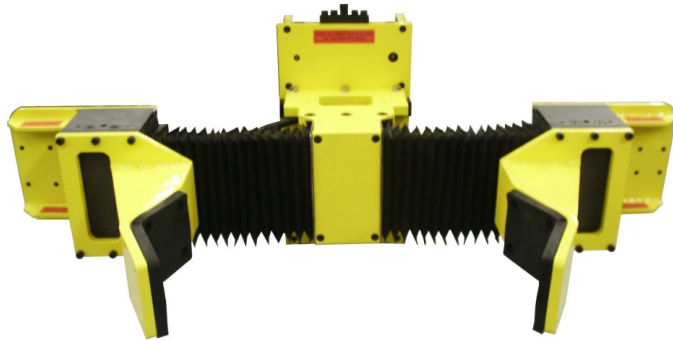

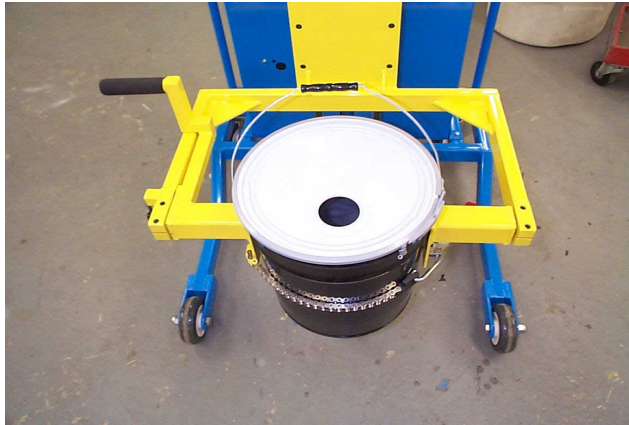

PICKING, ROTATING & DUMPING

Whether gripping, lifting, dumping, rotating or stacking, Unidex can offer a solution for you. Manipulators with articulating arms are shown below. The arm is vertically powered and the operator easily moves the load.

End tooling can be powered, mechanical, or manually secured.

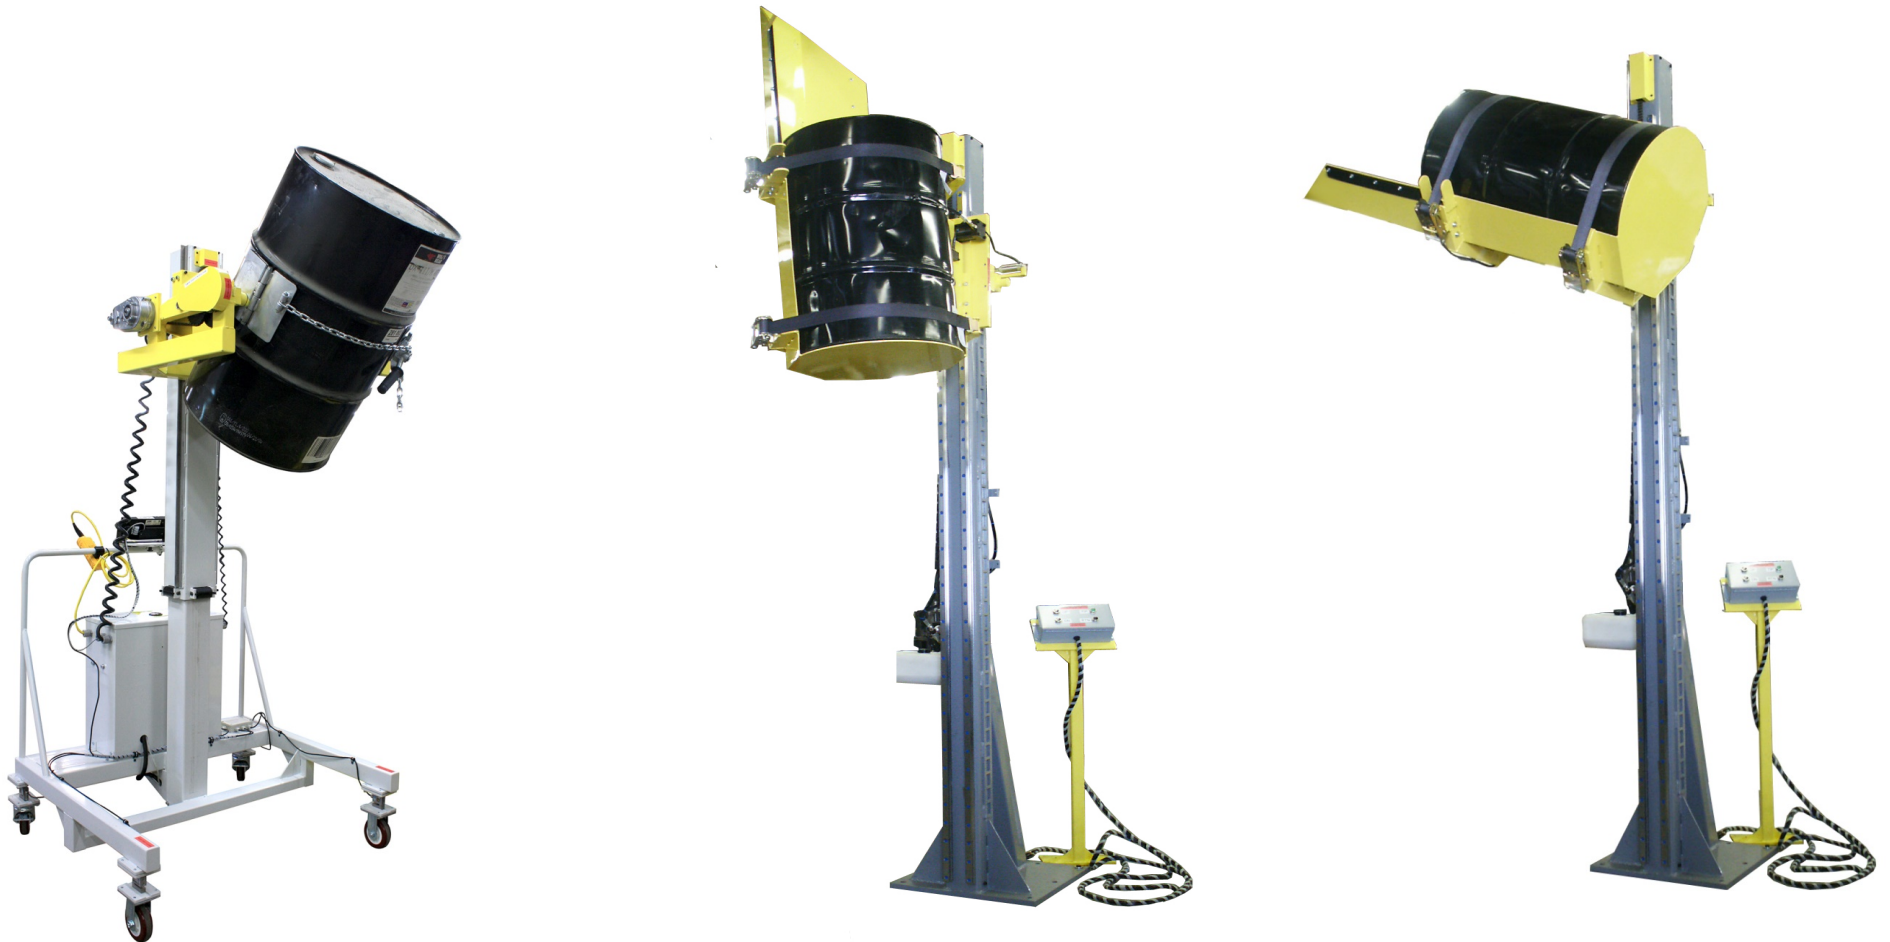

A portable lift device offers flexibility for movement.

More examples pail handling with our PE Model.

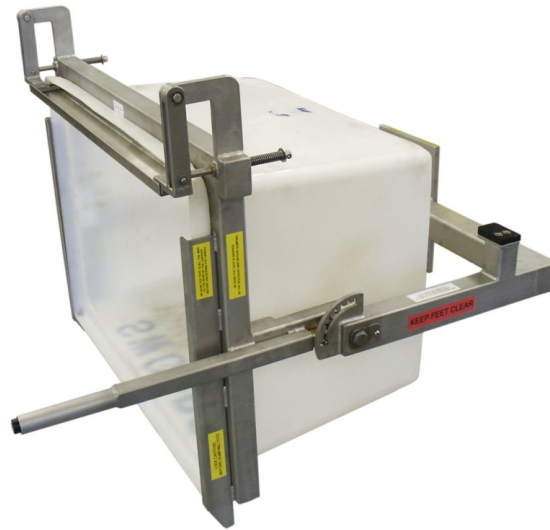

55-gallon steel Drum Lifts - can dump forward or to the side.

More portable drum dumpers.

Tote or Bin Dumping

Larger Bin Handling
